

Cor360 Purchase Order Supplier Portal

You may be aware that your customer has recently decided to utilize Cor360 Purchase Order to streamline and automate their purchase order and invoice process. What you may not realize is that your business can also benefit from this decision.

**If cutting both cost and time is important to you...
If having 24/7 visibility into your invoice status matters...
then the Cor360 Purchase Order Supplier Portal is an essential step in achieving these goals. The benefits of automating your invoice submission process begins the minute you process the first purchase order received.**

- + **Lower Costs** – Eliminate the need to scan and mail invoices which translates into a significant reduction in labor, material, and postage costs.
- + **Improve Turnaround Time** – Consider the advantages of a 30-second invoice. That's how much time it takes to flip a purchase order into an invoice within the portal.
- + **Increase Efficiency** – Use your staff for more strategic and value-added tasks rather than for tasks like creating and mailing invoices or making phone calls to check on invoice status.
- + **Reduce Errors** – Eliminate the possibility of errors or lost and misplaced paper invoices by automatically converting a purchase order into an invoice.
- + **Increase Visibility** – Get full 24/7 status into every invoice, including anticipated and actual remittance dates. Plus, any delays or exceptions can be viewed in real time.
- + **Gain Greater Control Over Cash Flow** – Knowing the receipt date and amount of every invoice will provide the information necessary for you to invest in the growth of your business.
- + **Receive Notifications** – Don't miss another purchase order. Receive timely email notifications with links taking you directly to the portal.
- + **Experience Billing Flexibility** – Add additional incremental charges to the invoice if your customer's business rules allow.
- + **Get Support During and After Adoption** – The Supplier Portal's imbedded help/chat capabilities allow you to communicate with Corcentric or your customer without leaving the portal.
- + **Get Paid Sooner** – Take advantage of our accelerated payment option to get access to cash earlier than the standard terms.
