Billing Solutions

FOR GPOs

**Cut transaction complexity for yourself
and for your members.**

corcentric.com

Corcentric minimizes purchase-to-pay complexity for your members while maximizing real-time visibility into their transaction data.

Your members already realize the power of group buying and the benefits of competitive pricing and discounts. Now, you can drive more value to your members by eliminating the complexity and burden of multiple invoices and payments.

Corcentric gives you, your members, and your suppliers a WIN-WIN-WIN.

You win:

- Visibility into members' purchasing patterns
- Greater leverage in supplier negotiations
- Connectivity to your entire community without additional investment in people, hardware, or software

Your members win:

- Less complex invoice and payment processes
- Access to purchasing credit
- Full visibility into all transaction status and data

Your suppliers win:

- Elimination of credit risk
- Early payment option
- Increased sales

Minimize buying complexity for your members with value-added benefits:

Transaction Management

From purchase order to payment, each step in the transaction process is centrally managed within the Corcentric solution. Your members have cloud-based access to POs, invoices, disputes, and payment status any time they need it.

Invoice Consolidation

Remove the burden and chaos of multiple supplier invoices and due dates. Your members will receive a single monthly statement with a consolidated view of their purchases for full visibility.

Payment Consolidation

Through consolidated invoices and full visibility, your members will cut the administrative burden of making multiple payments by issuing a single monthly payment to Corcentric.

Financing

Corcentric assumes your suppliers' credit risk by extending purchasing credit directly to your members, giving members more purchasing flexibility across all of your GPO suppliers. Our supply chain financing gives suppliers the option to get paid early on invoices—typically, as soon as an invoice has been approved by a buyer. We pay your suppliers while allowing your buyers to extend payment terms.

Business Intelligence

With all transaction data centralized, you have full visibility into purchasing behavior and trends that can be easily leveraged in supplier negotiations. Corcentric's spend analytics tools also allow a GPO to measure member activity and demonstrate the savings delivered to members.

Spend smarter, optimize cash flow, and drive profitability.

Corcentric is a leading provider of procurement and finance solutions. We help companies reduce costs and improve working capital by optimizing how they purchase, pay, and get paid.

Our solutions are designed to help businesses reduce their costs, increase their margins, and reinvest in the growth of their businesses.

Procurement

Leverage more purchasing power and get better spend visibility.

Payables Automation

Move from purchase order to payments, faster and with fewer headaches.

Billing Solutions

Simplify the complexity of wholesale distribution and national account billing.
